About the Casualty Actuarial Society

The Casualty Actuarial Society (CAS) is a leading international organization for credentialing and professional education. Founded in 1914, the CAS is the world's only actuarial organization focused exclusively on property and casualty risks and serves nearly 10,000 members worldwide.

CAS members are experts in property and casualty insurance, reinsurance, finance, risk management, and enterprise risk management. Professionals educated by the CAS empower business and government to make well-informed strategic, financial, and operational decisions.

Our members hold a variety of actuarial and leadership positions with insurance and reinsurance companies, brokers, consulting firms, state insurance departments, educational institutions, financial services, and other businesses that are looking to assess and manage risk.

Benefits of Sponsorship

The CAS Spring Meeting is a premier professional event for property and casualty actuaries, drawing approximately 1,200 participants, with approximately 65% attending in person. This event includes a broad range of property and casualty actuarial topics, networking opportunities, and welcome ceremonies for new associates and fellows to the Society. The meeting design is shaped by members, for members, to ensure the most relevant and valuable conversation, connection, and learning for actuaries influencing the property and casualty field.

Sponsors can choose one of four participation levels that provide a variety of benefits, with the option to increase engagement through a broad selection of a la cart sponsorship opportunities.
